What is this product?

Type

This product is an investment fund.

Objectives

Investment objective The investment objective of the Sub-Fund is to provide investors with an adequate exposure to the Euro equities market.

Investment policies As principal investment policy the Sub-Fund will invest with a particular focus in the Euro Area Equity markets. Normally the allocation to the principal investment policy will be limited between 70% and 110% of the NAV of the sub-fund, in equities and/or other equity related instruments (equity and index derivatives, equity rights, convertible bonds, warrants), dividend-right certificates and warrants issued by companies headquartered in a country being part of the Euro denominated area (for the purposes of this section the "Approved Instruments") or admitted to official listing on a stock exchange being part of the Euro denominated area or dealt in on another regulated market that operates regularly and is recognized and open to the public (a "Regulated Market").

As an ancillary investment policy, the Sub-Fund may also invest in accordance with the terms of the Prospectus, in other transferable securities, bond, Money Market instruments, derivatives, including but not limited to options, warrants, futures, swaps, other equity derivatives traded either on a regulated market or OTC and forward transactions, deposits and units in collective investment schemes.

The Sub-Fund may also hold on ancillary basis liquid assets.

The Sub-Fund may invest no more than 10% of its net assets in other UCITS/UCI.

The Sub-Fund will enter into securities lending transactions within the meaning of Regulation (EU) 2015/2365, for a maximum of 70%.

Recommendation: this Sub-Fund may not be appropriate for investors who plan to withdraw their money in the short-medium term (2-4 years).

Minimum Subsequent Investment: None.

The Sub-Fund' share class is denominated in EUR.

Share Class Benchmark 95% MSCI EMU (MXEM Index) + 5% ICE BofA Euro Treasury Bill Index (EGB0 Index)

Benchmark uses The Fund is actively managed. The Fund is using 95% MSCI EMU (MXEM Index) + 5% ICE BofA Euro Treasury

Bill Index (EGB0 Index) for the purpose of calculating the performance fee as indicated under the heading "Charges taken from the Fund under specific conditions" and in the past performance section below.

Redemption and Dealing The Sub-Fund is open-ended which means that it may, at any business day on the request of the shareholders, redeem its shares at prices based on the applicable Net Asset Value per Share.

The Net Asset Value ("NAV") of the Sub-Fund will be determined on each Business Day in Luxembourg ("Valuation Day"). The redemption requests will be closed at 4.00 p.m. CET ("cut off time") in Luxembourg on the Business Day preceding the relevant Valuation Day.

Distribution Policy Income arising from the Sub-Fund is being reinvested.

Intended retail investor

This Fund is suitable for retail investors who can accept medium term losses. This Fund may not be appropriate for investors who plan to withdraw their money within 4 years. The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

Term

There is no maturity date on this Product. The manufacturer is entitled to terminate the PRIIP unilaterally under the specific circumstances foreseen by the applicable law.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of Mediobanca Management Company SA. to pay you.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at <https://www.mediobancasicav.com/en/our-offer/prospectus>

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between September 2018 and September 2022.

Moderate: this type of scenario occurred for an investment between October 2017 and October 2021.

Favourable: this type of scenario occurred for an investment between March 2020 and March 2024.

What happens if Mediobanca Management Company SA. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to BNP depositary of the Fund responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited due to the segregation of assets between those of the Depositary and the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control. For all other losses, the Depositary is liable in case of its negligent or intention failure to properly fulfil its obligations pursuant to the UCITS Law and any applicable rules and regulations.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 4 years (recommended holding period)
Total Costs	572 EUR	1,404 EUR
Annual cost impact*	5.7%	3.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.2% before costs and -1.3% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	3.00% of the amount you pay in when entering this investment.	Up to 300 EUR
Exit costs	0.00%, we do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.27% of the value of your investment per year. This is an estimate based on actual costs over the last year.	227 EUR
Transaction costs	0.16% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	16 EUR
Incidental costs taken under specific conditions		
Performance fees	0.29% of the value of your investment equal to 20% of Sub-Fund's overperformance versus 95% MSCI EMU (MXEM Index) + 5% ICE BofA Euro Treasury Bill Index (EGB0 Index) (the Bmk), computed at fiscal year's end. Performance fee is due even if Sub-fund performed negatively but overperformed the Bmk.	29 EUR
